Purely Business!

The columns of a newspant a cush value. No puafford to give advertising free any more than a me toss over his counter free goods or shoes. A newspatilmate business concerning the second of the second of the second or shoes.

This means that we will sell, beginning today until the 15th of February, every Suit, every pair of Pants,
every Overcoat (not a garment is reserved) in our house oue-third less
than the regular legitlmate price.
It is needless to tell you of the
merits of our merchandise. No honse
in the state competes with ns in style
and qualities.

The Alleghenv and Monongabela Rivers are roise at the headwaters, and the Ohlo shows a slight rise at Pittsburgeh. The rise is being caused by the warm weather and meiling anow in the upper valleys. A rise of over a foot is reported at Pairmount, on the Monongabela River, and shight rises are also reported on the Alleghosy.

The ice has disappeared from the Ohlo, and navigation is again unbindered. The prackets, while not having at they can do, are handling considerable freight and passengers. The Pittburnh packets have also resoned, and with the besuffew weather we have been having the past few days there will undoubtfully be an increase in passenger traffic.

HOUSEKEEPING

Have yon been disappointed in the service and appearance of your table linen? Yes! Then you didn't buy here for our linens are for funiform quality and we've done less than our best if we do not save you 20 to 30 per cent. Think that statement over, it means much. Proof of our linen lendership is on every side. The present lots are eloqueut of real economy.

TABLE LINENS.

At 48c, yard—Extra heavy half-bleached Scotch damask, 62 Inches wide in several pretty patterns. At 58c, yard—Splendid quality half-bleached damask from treland, made of sturyd yarns; full 2 yards wide, would be good value at 85c. At 49c.—Snow white damask from use of treland's leading makers. Would be a lucky find at 85c. At 75c, yard—Fline heavy hieached Scotch damask, 72 Inches wide, at least 6 patterns. You'll soon be paying \$1 for same quality. At \$1 yard—Excellent quality full bleached double damasks. The biggest dollar's worth we know of. Two yards wide and ten beautiful patterns. At \$1 25 yard—Fine handsome bleached Flemish double damask. Two yards wide; several new, rich patterns; soft, mellow finish. You may probably match it at \$1 75. At \$1 50 yard—liandsome Flemish double satin damask. Choice and exclusive patterns. Two yards wide. You save almost a dollar on every yard. Naphin 50 match many of our tablecioths both in fine and medium grades.

"The best way to get rid of a had law is to enforce it."—General Grant.

In another place appears a communi cation addressing several questions to THE LEDGER, some of which it cones inability to answer.

However, It contains points worth preserving, for the sake of history if for no other reason.

"Inquirer" must remember that Congressman Punn's plan was a radical departure from the old fogy way, which required the Congressman to have 26,00 Disc Harrows enough spinal cord to make his own 3.00 Kitchen Safes eelection for Postmaster, and thus com mand the respect of even those who were left etanding on the outside of the ple counter.

Another thing. Mr. PUGH, in his address before his Advisory Board at the St. Charles Hotel

Chemistry has demonstrated largely the substances which the buman system needs, and Botanist Coville finds the es-sentials present in a great many plants, some of which are nowhere considered as effective food for man, and some of which have only a local use as human Mr. Coville points out that wild her-

bivorous animals feed on the fats and carhohydrates stored up in plant seeds in the fall. They fatten on this diet and gather in hodily fuel for the winter Having exhausted their supply of fat by spring, they make green herbage their principal food. This renews their must cular vigor and vitality. This dietary system prevails among savage peoples, and is largely followed by the Indians of the Western states. Man's food lass grown more artificial with the advance of civilization, until, as Botanist Coville America Company N. Williams.

Why are some offices of the general
Government filled by Presidential appoistment? Is it to issue having capable officers, who by efficient service to
the public may not be detrimented to the
party?

Does an applicant for such a place require the indursement of the Congress
